

January 20, 2025

To our valued customers,

Our resin suppliers have announced increase for January that is looking likely to hold in the market. Continued strong domestic and global demand, and rising feedstock costs support the increase.

As such, we are taking the position to notify our customers. We will see how the market settles in the next few weeks and confirm.

**If the resin suppliers are successful in pushing through this increase, Mercury Plastics will have to follow suit with an increase ranging from 6-7% to be effective Feb 20, 2025.**

**Any purchase orders already placed with Mercury Plastics will not be affected by this increase. All new orders must call for normal delivery lead times and we reserve the right to limit order quantities. This ensures consistent quality of service and availability to all our customers.**

Your Mercury Plastics sales representative will be in contact with you to answer any of your questions and advise you of changing market conditions. We understand the burden price increases place on all of our businesses and thank you for your continued support and loyalty.

Sincerely,

A handwritten signature in black ink, appearing to read 'Benjamin Deutsch'.
