Price Increase Notice

Dear Valued Partner,

Please note the recently announced manufacture increase on Steel. For your convenience I have included a copy of the manufacturer letters as another point of reference. Upon review, feel free to contact your local branch representative and/or myself at your convenience.

Steel:

- **Steel related products** **August 1st, 2016** **8-10%**

Please continue to communicate and work with our staff on long-term pricing projections.

As outlined in previous communications there is tremendous cost pressures as it relates to the Canadian dollar (duty/exchange) on products produced or required in the manufacturing processes which are being passed through the channel. Additional pressure is being applied by the North American steel producers who have filed with the US Government to enact trade actions, basically limiting less expensive offshore raw product into our production chain.

On behalf of Shoemaker Drywall Supplies I would like to reassure our clients that we are committed to your business and the local landscape. We will continue to monitor and communicate with our manufacture partners as we move forward and update you on further changes related to costs.

Respectively,

Greg Holunga, C.I.M.
Vice President of Sales
Shoemaker Drywall Supplies
