Attention: Brennen Bowley  
RE: Price increase notice

HI Brennen,

Due to the ongoing international situation, including the recent war and continued global inflation, the impact on the global supply chain, energy, and raw material costs has become increasingly unpredictable.

These external factors have significantly increased our overall costs—from production to logistics—making it necessary to implement a price adjustment.

Effective May 15 2026 IFTI will be implementing a 10% price increase across our product line.

We appreciate your continued support as we navigate through these current issues and remain committed to offering the best value for our customers.

Regards,

Brad Glazier  
Technical Director, V.P Testing and Accreditation
