

Price Increase Notification

Effective June 1, 2026

April 1, 2026

Dear Valued Customer,

In a context of ongoing market uncertainty and sustained pressure on steel, manufacturing, transportation, and overall operating costs, our cost structure continues to be significantly impacted.

Our last price adjustment — implemented in January 2023 — was a decrease, and we have worked hard to absorb rising costs since then.

As a result, we will be implementing a price increase of 4% on all products, effective June 1st, 2026.

All orders shipped on or after June 1st, 2026 will be invoiced at the new pricing levels. Updated price lists will be shared shortly by your account manager.

To support your planning, we encourage you to review your upcoming requirements ahead of the effective date.

While market conditions remain dynamic, we continue to closely monitor cost drivers and are committed to maintaining as much pricing stability as possible going forward.

Above all, we remain dedicated to delivering high-quality products, consistent supply, and strong support to each of our partners.

Should you have any questions, please do not hesitate to contact your account representative.

Thank you for your continued trust and partnership.

Sincerely,

Jean-Richard Boulé

National sales director
