TO: Canadian Customers of Siplast Roofing Products

**RE: PRICING Update - Siplast Products**

Dear Colleagues,

Due to increased global volatility impacting supply-demand dynamics in raw materials and transportation costs, it has become necessary to pass along recent cost increases to the market.

Please refer to the chart below for the precise information on each affected product category as well as an update to Siplast's freight surcharge policy.

Product	Increase Amount
Asphaltic products	5%-9%
Single Ply membranes & accessories	5%-7%
Polyiso	5%-8%
Adhesives, primers, sealants & caulks	8%-10%
All other accessories	3%-5%
Liquids and Coatings	5%-8%
Freight Surcharge set at	\$750/TRK

These adjustments will be effective for all shipments on/after April 24, 2026. We will honor any job quotes issued prior to today through the original expiration date. Siplast pricing will be valid for 90 days, unless otherwise noted on the quotation.

With thanks for your consideration,

Kirk Goodrum
